

Are you standing firm in the freedom that Christ has given you? Paul wrote to the Galatians to encourage them that they need to stand firm because a believer can lose his freedom. Yesterday we talked about how people can revert to legalism (rules, religion) or licence (I'm under grace, not law, I can do what I want). Paul says both are wrong so we need to stay walking in freedom. Has the joy of knowing the Lord gone from you? Have rules and regulations taken its place? Have you become judgmental? Or have you not really cared what you do because God will forgive me anyway? Both are dangerous positions to be in. Both are not true descriptions of freedom but only when someone comes under the authority of the Bible and loves Jesus and loves their brothers as they love themselves and knows their position as loved children of God. Then they truly walk in real Christian liberty and can follow Jesus with overflowing joy! **It is for freedom that Christ has set you free Gal 5:1**
